Menu items aren't aligned correctly. 'Submit Property' button doesn't navigate to the 'Submit page. When condensed, the sidebar doesn't display correctly, see image for reference. If possible, correct this so it looks more presentable (i.e. displaying only the icons rather than the text). If this is not possible, make it so that when the menu is 'condensed' it is hidden, and when clicked again will display again in full size.
